

Everwild Canmore Named One of North America's Top Spas Just Six Weeks After Opening

Canadian Rockies destination ranks #30 in North America and #7 in Canada in Spas of America's 2025 rankings.

CANMORE, AB – January 5, 2026 – Just six weeks after opening its doors in the Canadian Rockies, Everwild Canmore has been named one of North America's top spas, ranking #30 on Spas of America's Top 100 Spas of 2025.

Everwild officially opened on November 20, 2025, giving the new Canmore destination only a fraction of the year to earn its place among some of North America's most established spa and wellness destinations. Everwild was one of just 22 Canadian spas to make the Top 100 and was also ranked #7 in Canada in Spas of America's Top 50 Canada Spas of 2025.

"To be recognized alongside some of North America's most established spa destinations just weeks after opening is incredibly meaningful," said Sky Mitchell, Founder and CEO of Everwild. "We set out to create something that feels distinctly connected to this place and to the way people want to spend their time here. This recognition is a testament to the team who brings Everwild to life every day and to the guests who have supported us from the beginning."

Set against the Canadian Rockies in Canmore, Everwild brings together hot and cold pools, saunas, steam rooms, relaxation spaces, fire gardens and guided programming, alongside a 99-room hotel and Rhythm & Howl restaurant.

Spas of America's annual Top 100 recognizes the most sought-after spa and wellness destinations across North America. The 2025 rankings were based on verified consumer interest measured through unique page views on Spas of America from January 1 to December 31, combined with public Google Review ratings. Only properties with a Google rating of 4.0 or higher were eligible.

The recognition comes as Everwild enters its next stage of growth, with new destinations underway in Fernie, Banff and Harmony (Calgary). Each will be shaped by its surrounding landscape, bringing together thermal experiences, sauna culture, food, programming and gathering in ways that feel specific to place.

"Canmore was the beginning for Everwild," said Mitchell. "To see this response so early gives us even more excitement for what comes next."

About Everwild

Everwild is a Canadian wellness and hospitality brand creating thermal experiences shaped by place. Bringing together heat, cold, rest, sauna rituals, food and gathering, each Everwild is designed to reflect its surroundings and offer a thoughtful approach to wellness.

Everwild Canmore opened in November 2025 in the Canadian Rockies, with future destinations underway in Fernie, Banff and Harmony, Alberta.

Feel Better, by Nature.
